

Suffolk Hearing Aid Recycling Scheme

Do you have any old hearing aids tucked away in a draw that you don't want and never use? If so we want them! Private hearing care specialists, The Hearing Care Centre, who work in partnership with the Eye Health Centre, have recently launched a their new 'Suffolk Hearing Aid Recycling Scheme', and need your help.

They are collecting old unused hearing aids, which can then be refurbished and sent away to the third world, to help those in developing countries with hearing impairments.

How to Donate: A collection box has been set up at Eye Health Centre for you to drop off any unwanted hearing aids. Please ask at reception. All types of hearing aid can be accepted, no matter what the condition.
